(Requires approval prior to awarding points and no less than 7 items from the list completed within the award period.)

Provide a written report on how your Americanism initiatives have made an impact on our valley. This will be considered in any tie breaking that might occur. This document sheet can be used for that report. Narrative input is up to the Valley in regard to content.

The award period is being changed to a Calender year.

This period will end December 15, 2024.

This is the date the Americanism criteria report is due to the chairman of the Committee on Americanism. This change is made in order to allow proper planning and execution within the valleys yearly planning cycle and during one elected leadership period. The committee on Americanism will make a recommendation to the SGIG and the award will be given as soon as practical at the end of the calendar year.
